

Subject: BBC request - X-Ray

Dear Sir or Madam,

I'm working on X-Ray, the consumer programme for BBC1 Wales. We're hoping to film an item about fuel poverty in the next few weeks and are looking for people to take part.

We'd like to gather together a group of people who are struggling to pay their energy bills and would like to save some money but have been with the same supplier for a long time. We'll bring an expert along to look at their bills and advise them on how they could save some money.

I was wondering whether you could put the word out amongst your volunteer and community groups to see if anyone would be interested in taking part? We were thinking about filming this in Anglesey as it's one of the worst areas in Wales for fuel poverty, at a location tbc.

Many thanks
